WEDNESDAY, DEC. 8, 1875.

NEWS OF THE MORNING.

The school election in Sacramento on Monday resulted in a Republican victory.

The burglars were committed in Marysville on Monday night.

Lieut. J. H. Weeden, U. S. Engineer, is making surveys of San Diego river.

The store of Goldbaum Brothers at Montserrat was destroyed by fire last Saturday.

J. H. Lyon was elected Chief Engineer of Portland on Monday.

The steamer "Los Angeles," now in the Victoria trade, is overdue and great anxiety is felt for her.

The Sheriff's Guard at Campo has been overpowered and two Mexican robbers hanged.

The orderly city of Cincinnati has just been the scene of a jail delivery.

The German Up Town Savings Bank failed on Monday. A Receiver is to be asked for it. It will pay 85 cents on the dollar.

A St. Louis special says that the United States grand jury were to vote on the question of indicting Hancock yesterday.

A London special says the rumors of approaching war between the United States and Spain on the Cuban question, lately telegraphed from Madrid to England, are discredited.

It is now believed that 150 lives have been lost on the steamer Deutschland, near the English coast.

A Bombay dispatch says the Prince of Wales is on his homeward route.

A dispatch reports a railroad accident on the Pennsylvania Railroad near Jersey City.

Ex-Governor McCormick and wife arrived at Maricao, Waile yesterday, enroute for Tucson, and will proceed by special stage to day.

Two men, whose names it was impossible to learn, were terribly injured yesterday by a premature explosion of a blast at McCracken's mine.

Some Revolutionists have reported at Tucson as follows: On the 21st inst. had a fight with 90 Government troops under Silvas, killed three, wounded one and took 17 prisoners. Captured 16 horses, 10 mules and other property. Afterward one Government officer and a man surrendered to one Caliente, who commanded the Revolutionists.

THE President's message is an exhaustive document, in fact, too long for the mass of people to wade through it. It treats of a variety of subjects, from Chinese women up to education, and will take rank as a remarkable State paper.

THE British American Pacific Railroad seems to be a thing of the past, or a very remote future event. Dispatches from Victoria state that the work has been abandoned and the Dominion Government proposes to pay British Columbia \$750,000 as a compensation for the indefinite postponement of the work. This action has caused very unfavorable comment in British Columbia.

It was rumored yesterday on the streets in San Francisco that the famous race horses, Springfield and Golden Gate, were to be sent to New York. This would imply a fear, on the part of the owners of these famous horses, that the great race was to be a failure. It would seem that racing in California is destined to an inglorious future unless the track is divested of many of its repulsive features. The Pacific turf needs a BONNER who will labor for the improvement of the horse from a love of that noble animal and not from the mere desire to win money on the success of a horse race.

The Finances of the Government.

The following is the language used in reference to our Government, by our townsman H. D. BARROWS in an article published in the evening Express of the 7th:

"Beggars and sneaks desire to have the use of capital that is not theirs, (against the will of the owner,) without paying for it; and thieves only go a step further and seek to get possession of other people's capital with a pretense of returning it much less of paying anything for its use."

Although we are as far from being an inflationist as the hardest money man in the State, we do not consider the exposition which Mr. BARROWS has given of this subject a fair one, neither do we commend the language used in reference to the Government. It seems to be the general impression of all who write on this subject, that the government has attempted a downright swindle upon the people, by issuing its small notes as a circulating medium, and has got value received from somebody for these worthless notes, and pocketed it, and is about to repudiate the redemption of them. This is not only an unfair way to present this subject, but it is false from beginning to end. The Government has not received a dollar for these notes, but as a matter of accommodation issued them and loaned them to the bankers throughout the country, and hold the banker's responsible for them. The government has received as security for their payment bonds upon which the government pays an annual interest of about 5 per cent. Now Mr. BARROWS would have the government call in these greenbacks and give other notes for them which will draw compound interest, thus making the government pay double and compound interest on three hundred and fifty millions of dollars. We object to all such "financing" upon the part of the government. If Mr. BARROWS wishes to conduct his own business upon that basis we have no objection, but we seriously object to being taxed to pay double interest to benefit anybody. There is no doubt but the authorities have made some

blunders in financial affairs, but we will not apply the appellation of "beggars, sneaks, thieves, etc." to them until we convict them of these crimes. We believe they have discovered their mistake and will make haste to correct them. One mistake is now apparent to all, viz—the act by which the government refused to receive greenbacks for all dues. If the currency could be received for import duties, all the nations dealing with this country would take it as readily as gold, which would bring it to par with specie at once. But we are told that the government would then have no visible means of procuring funds to redeem its paper. This is a great mistake too. The government has several thousand tax collectors scattered all over the country, who collect annually over five hundred millions of dollars from the people, the most of which goes into the treasury of the government. At this rate all the currency will soon be redeemed—and destroyed—then the government will call on the bankers for the amount due from each. There being no currency on these banks must collapse, or forfeit the bonds they left as security. We are not surprised at the stringency of money matters in the East; the tax collectors are redeeming the currency and it is getting very scarce among the people. That is what is the matter with them, and if the government does not stop this class of redemption it will be worse yet. All that we want is to have the government make gold the only legal tender, and then make its currency equal to gold. This latter can be done as above indicated. The bond holders and hard money men may say what they please, but a nation of forty-five millions of people owing a debt of over two thousand millions of dollars, with only six hundred and fifty millions of it in the land, must have something besides a metallic currency to pay the expenses of the government and liquidate their indebtedness. We believe the wisdom of our present Congress will be equal to the task of arranging our finances satisfactory to all.

The Third Term.

We are pleased to see that the ablest journals of the Republican party either openly oppose the third term scheme or treat it as an impossibility. President GRANT gets but cold comfort from such dignified journals as the New York Times and the Chicago Tribune, and the latter coolly suggests that GRANT should run for a third term in 1880. The Tribune says in a foxy manner that President GRANT must desire to retire on his laurels of statesmanship and hints that four years of another President's administration will satisfy the people that he is the pilot needed to guide the ship of State and then a national demand will be made for his elevation to the Presidency. This is a kind of third term that the people are in favor of and President GRANT will consult the good of his party and the desires of the country, by stepping out to await the public demand for his return to power. At present we do not hear this popular clamor for GRANT's re-election, but, if there is anything in the signs of the times, it is a rising storm of public opinion that will sweep GRANT and his Washington rings from power, and they will never be re-instated.

A Statement.

EDITOR HERALD:—In this morning's issue of the HERALD, a sensation article appeared reflecting on the intimacy between Mrs. Allen and D. J. Dingman. As the husband of Mrs. A. I flatly contradict the assertion of undue familiarity between the said parties and moreover shall hold to strict accountability the party or parties who set afloat such slanderous statements. I will also state that I escorted Mrs. Allen to the San Pedro cars and requested Mr. D. to see to her welfare on shipboard, and as he is a gentleman (derogatory statements notwithstanding) I presume he did so. As my relatives in Santa Barbara have telegraphed me of her safe arrival there and her distress of mind concerning this published statement, she will return at once to assist in bringing to light the authors of this villainous attack on her good name. Trusting you will see the propriety of undoing what has been already unfortunately done. I am respectfully,

J. M. ALLEN.

A Card.

To the Turn Verein Germania, and all friends who assisted in paying the last honors to our beloved son, Frederick Auten Traubert, we desire to return our heartfelt thanks, and we trust that the consolation bestowed at this time of our sore necessity, may return to them many fold when all or any of them are called upon to mourn the chastening hand of death.

School Election.

SACRAMENTO, Dec. 6th.—The school election to-day resulted in a victory for the Republicans, John F. Dreyman being elected from the First Ward, A. F. Nelson from the Second Ward, J. H. McFarland from the Third Ward and J. F. Richardson from the Fourth Ward. Hinckson, Democratic, was elected City Superintendent over Haswell by quite a complimentary vote.

"I'm two years older than you," said a little eight year old girl to a New Bedford boy the other day.

"Well, I don't care," was the reply.

"I'm going to wear trousers soon, and that you'll never do."

San Francisco News.

SAN FRANCISCO, Dec. 7th.—A man named Edward Ambroy, residing in Hayes Valley was garroted and robbed last evening within a few doors of his dwelling. He had cashed a check for \$85 and was returning home when he was approached by some ruffian who grabbed his neck and choked him, filled his mouth with mud and threw him to the ground.

The Comstock to-day declared a dividend of fifty cents per share, payable the 21st of December.

It is rumored that the Collector of Port M. Shannon, feeling disgusted with the reduction of his fees and at the dismissal of part of the force of clerks in his department has determined to send in his resignation.

The new Board of Supervisors was installed last evening. Mayor Hewson delivered his valedictory, Mayor Bryant his inaugural address.

A rumor was current on the street yesterday that Joe Daniels was to start for New York on or about the 16th instant taking with him his retinue of helpers and the race horses, Springfield and Golden Gate.

The owner of the horses Mr. Bernard had received news concerning the management of the horses which led to telegraph an order for their return. It is stated on good authority however that as soon as the facts of the case are made known to Mr. Bernard the order will be countermanded.

Nothing has been heard of the overdue steamer Los Angeles as yet. Telegraphic communications have been open since yesterday with Port Townsend, but no news of the missing vessel has been received at that place. Considerable anxiety is now felt by the owners of the steamer and their friends and relatives of those on board concerning her safety. Goodell, Nelson & Perkins, the agents, have telegraphed instructions to Port Townsend to dispatch the Revenue Cutter Albatross on a cruise in search of the Los Angeles, and to give her assistance in case she shall be found in distress. There is still hope that she is afloat. There is a possibility that she is at the bottom of the sea, or she may have had her hull broken, as happened this same vessel before on a voyage up to Victoria.

Charges of assault to murder and assault to rob were entered on the city prison Register to-day against Harry Young, Ladum, the brother of a clerk who so narrowly escaped assassination, is well enough to be out on the street. The case will probably be examined in the Police Court on Thursday.

Sudden Death.

SAN JOSE, Dec. 6th.—Coroner Cory was called upon to an inquest on this forenoon upon the body of a man named Germain Victor Fleury, who died suddenly at his residence near the corner of Vine and San Fernando streets this morning. The jury found that the deceased was a native of France, aged 25 years, and that he came to his death from natural causes superinduced by intoxicating liquors. Fleury was an old resident here and kept the city bath house and shaving saloon on First street for many years.

Lynch Law.

CAMPO, Cal., Dec. 6th.—Last night at 11 o'clock a party of unknown men overpowered and tied the Sheriff's Guard, which has been stationed here since the recent robbery, seized two Mexican prisoners and hung them.

River Surveys.

SAN DIEGO, December 6th.—Lieut. J. H. Weeden, of the United States Engineers, came down on the Montana and is at work making surveys for turning the San Diego river. If the right of way can be obtained through private lands, and should the weather continue favorable, he will commence work at once.

The store of Goldbaum Brothers, at Montserrat, was entirely destroyed by fire Saturday morning. They saved only their books and a small quantity of liquors and flour. Loss, \$6,000; insured for \$4,000. The fire is believed to have been the work of an incendiary, as there had been no alarm given, and the fire broke out in the premises. It was first discovered in the roof, but had gained such headway that it could not be stopped.

Burglaries.

MARYSVILLE, Cal., December 7th.—Three burglaries were committed in different portions of the lower town last night. A dwelling house on the corner of Seventh and D streets was entered while the family were at church, and some silverware taken. The thieves were frightened off by the return of the family. A grocery store on Second street was entered and several boxes of tobacco, a quantity of canned fruit, spices and other articles taken. An office on Fourth and E streets was also entered, but nothing of value was found by the burglars. From the nature of the operations the officers were led to believe the burglars were the work of tramps, and during the day five suspicious looking individuals were arrested on charges of vagrancy and held to await developments.

EASTERN NEWS.

Railroad Accident.

NEWARK NEW JERSEY, Dec. 7.—It is reported here that a serious accident occurred on the Pennsylvania Railroad to-day. It is reported that a fast mail train left the track at a point of rocks just East of Jersey City. No papers have arrived here as yet.

The Message.

NEW YORK, Dec. 7th.—A Washington special says that it is understood that the President will have something to say on the school question in his message. The matter concerning Cincinnati will be a long review of the wrongs of Spain towards the United States and Cuba, but he will say that negotiations are in progress and the reply of Spain is still awaited. There will be some strong language concerning Mexico. He will recommend that Indians receive their supplies through army commission and their pay departments.

Jail Delivery.

CINCINNATI, Dec. 7th.—Four prisoners in the Cincinnati jail knocked the jailor down, and then his wife, who came to his rescue, and made their escape. They are still at large.

Jno. Barclay was found on a doorstep on Central avenue with a gunshot wound in his breast.

The President's Message.

Last night we received the President's message, but found ourselves unable to get it all set up, and have made a careful condensation which will be read with interest.

The President's introduction is congratulatory and contrasts the condition of the country now with what it was when we numbered only 3,000,000 and had very little wealth. He then devotes considerable space to our agricultural, mining, mercantile and other interests. He advances the following ideas on education:

As we are now about to enter upon our second Centennial, commencing our manhood as a nation, it is well to look back upon the past and study what will be best to preserve and advance our future greatness. From the fall of Adam for his transgressions to the present day no nation has ever been free from threatened danger to its prosperity and happiness. We should look to the dangers threatening us and remedy them so far as lies in our power. We are a republic where one man is as good as another before the law. Under such a form of government it is of the greatest importance that all should be possessed of education and intelligence enough to cast a vote with a right understanding of its meaning. A large association of ignorant men cannot for any considerable period oppose a successful resistance to tyranny and oppression from the educated few, but will inevitably sink into acquiescence to the will of intelligence, whether directed by the demagogue or the priestcraft. Hence the education of the masses becomes of the first necessity for the preservation of our institutions. They are worth preserving because they have secured the greatest good to the greatest proportion of the population of any form of government yet devised. All other forms of government approach it just in proportion to the general diffusion of thought and action. As the primary step therefore to our advancement in all that has marked our progress in the past century, I suggest for your earnest consideration, and most earnestly recommend that a constitutional amendment be submitted to the Legislatures of several States for ratification, making it the duty of each of the several States to establish and forever maintain free public schools adequate to the education of all the children in the rudimentary branches within their respective limits, irrespective of sex, color, birth-place or religion, and forbidding the use in said schools of irreligious, atheistic or pagan text books, and prohibiting the granting of any school funds or school taxes, or any part thereof, either by legislative, municipal or other bodies, for the benefit of any other object, of any nature or kind whatever. In connection with this important question I would also call attention to the importance of correcting an evil that, if permitted to continue, will probably lead to great trouble in our land, and to the close of the nineteenth century. It is the accumulation of great amounts of untaxed church property. In 1850 I believe the church property of the United States which paid no tax, municipal or State, amounted to about \$3,000,000. In 1860 the amount had doubled, and in 1875 it is about \$1,000,000,000. By 1900, without check, it is safe to say that this property will reach a sum exceeding \$3,000,000,000. So vast a sum, receiving all the protection and benefits of the Government without bearing its proportion of the burdens and expenses of the same, will not be looked upon quietly by those who have paid the taxes. In a growing country, where real estate enhances so rapidly with times in the United States, there is scarcely a limit to the wealth that may be acquired by corporations, religious or otherwise, if allowed to retain real estate without taxation. The contemplation of so vast a property as here alluded to, without taxation, may lead to sequestration without constitutional authority, and through blood. I would suggest the taxation of all property equally, whether church or corporation, exempting only the last resting place of the dead.

His views on foreign relations are expressed as follows:

Our relations with most of the foreign powers continue to be satisfactory and friendly. Increased intercourse, the extension of commerce and the cultivation of mutual interests have steadily improved our relations with the large majority of the powers of the world, rendering practicable the peaceful solution of questions which from time to time necessarily arise, leaving few which demand extended or particular notice. The correspondence of the Department of State with our diplomatic representatives abroad is transmitted herewith.

He concludes as follows:

First, That the States be required to afford the opportunity of good common school education to every child within their limits.

Second, No tenets shall ever be taught in any school supported in whole or in part by the State, nation, or by the proceeds of any tax levied upon any community. Make education compulsory so far as to deprive all persons who cannot read and write from becoming voters after the year 1890, and disfranchise none, however, except on the ground of illiteracy who may be voters at the time this amendment takes effect.

Third, Declare the Church and State forever separate and distinct, but each free within their proper spheres, and that all church property shall bear its own proportion of taxation.

Fourth, Drive out licensed immorality, such as polygamy and the importation of women for illegitimate purposes. To secure again the Centennial year it would seem as though now, as we are about to begin the second century of our National existence, would be a most fitting time for these reforms.

Fifth, Enact such laws as will insure a speedy return to a sound currency, such as will control the respect of the world. Believing that these views will commend themselves to the great majority of the right-thinking, patriotic citizens of the United States, I submit the rest to Congress.

It is SELDOM that we notice anything in the medical line, nor would we now, unless we are convinced that we are not doing our duty as journalists in not preparing to the public the celebrated botanical preparations of Dr. Henry's Sore Throat and Sore Throat, etc. It stands without a rival. Dr. Henry's Liniment is an alleviator of pain, is unrivaled by any preparation before the public; the most skeptical will be convinced by a single trial. It will prove itself a "friend in need" which no family should be without.
